University

**SAT 27/8/2011**

# **QUANTUM OPTICS**

## the next 25 years

**Unlike any workshop you have attended: Speculate about the future. Sketch bold visions and new gadgets.**

**What will the big concepts and contributions of quantum optics be in another quarter century ? What will the contributions of our work today be to everyday life in 2036 ?**

**This is the topic of our ANU symposium: celebrate, summarise and make predictions. Hear some of the most active researchers from three continents speculate and discuss.**

**Huxley Lecture Theatre RSPE ANU**

**27/8/2011 from 09:15 to 17:00**

**<http://www.anu.edu.au> free lunch and refreshments for all attendees**
