

LETTER 132

“Clock House”

Elizabeth St,  
BRISBANE

10/3/23

The Commissioner of Patents,  
Patent Department  
MELBOURNE

Dear Sir,

In November 1921 I applied for a Patent entitled “Improvements in Mechanism for Turret Clocks and Bell Striking” sending One Pound (£1), a receipt for which was sent to me dated November 7 th. 1921 No.4343.

On the 24 th March 1922 a communication was sent to me 4343/21 asking for modifications and some alteration.

This I replied to on 30 th. March 1922 through Registered Post sending certificate required as Form B.!. etc.

Since then I have not received any communication and would be obliged if you would let me know if the notice of acceptance has been sent, if so it must have gone astray, and enquiries will be instituted at the Chief Post Office.

Awaiting your esteemed reply,

I am,

Yours faithfully,

*Alf Geo Jackson*

P.S. Please note change of address.
